

"EASY 1 - 2 - 3 Steps" to ORDER YOUR OWN ROLLOUTS

Dimensions of the Standard Rollout Shelf from Shelf Improvement

1. Measure the Unobstructed (Clear) Width [W] of your cabinet openings:

- A** Measure the cabinet's unobstructed [W] to the largest Whole Inch
For example, a cabinet opening of 24 3/8" wide is to be ordered as 24".
- B** If the door hinge is within the 4" H of the Rollout, measure [W] from the hinge.
- C** Note that the Rollout Shelves will be made 1/4" narrower than the whole inch ordered.
 For example: an order for a 24" Wide Rollout will be made 23 3/4" Wide giving a clearance of at least 1/8" on each side of the Rollout.
- D** Write the Rollout's Width (to the largest whole inch) in the Order Form below.

2. Measure the Unobstructed Depth [D] of your cabinet openings:

- A** Measure the cabinet's unobstructed [D] depth.
- B** Our Rollout Shelves are made in (3) depths: 21 1/2" or 18 1/2" or 16 1/2" deep.
- C** Select the largest Depth that will fit within the cabinet's unobstructed opening [D]
- D** Write the Selected Depth for the Rollout in the Order Form below.

3. Enter the ... Quantity ... Width ... and Depth ... of Your Rollout Order

Line	Qty	Width	Depth
